

# En Classe

Improving schools. Building futures.

## Our Model School is a school where:

- the school management is dynamic and trustworthy
- students pay their school fees
- students are with a maximum of 40 in a classroom
- students can be educated from kindergarten to high school
- students can safely study under decent learning conditions
- students can use clean toilets and wash their hands
- students are challenged by a good teacher
- students can read according to their age

## How will we get there?

By helping, advising, trusting and guiding the school management in making changes on how to become our model school.

In cooperation with the local En Classe team in Kinshasa, consisting of seven young, smart and enthusiastic Congolese, we will implement our four programs.

### 1) Construction program

- + Fence, wall with main gate
- + Erosion protection
- + Roof made of Onduline
- + Well ventilated and solid classrooms with tiled flooring
- + Electricity
- + 20 wooden / metal benches per room (height adjusted to students)
- + Metal cabinet, table and chair for the teacher
- + Black- or white board and 3 educational posters
- + Computer room, powered, ventilated, furnished with computers
- + Separated bathrooms for girls and boys
- + Handwashing station, watertank and connection to Regideso

### 2) Hygiene program

- + Good knowledge of hand washing
- + Good knowledge of toilet use
- + Waste management
- + Oral hygiene and healthy food

### 3) Training program

- + Teacher training
- + Student Leadership Training

### 4) Reading program

- + Digital Library
- + Physical library
- + Additional courses for those who need help
